Device Manufacturer

**SOLUTION:**

Software Services

**ABOUT STAYLINKED**

For over 20 years we have been delivering world-class solutions for mission-critical, host-based systems in the warehousing, manufacturing, transportation, and retail industries. It was our deep understanding of these host-based systems that led our team of technology experts to introduce a new paradigm in terminal emulation for mobile devices. The StayLinked team has earned our company a reputation for high-quality products that Just Work and a level of customer support that creates the highest level of customer loyalty.

# StayLinked Terminal Emulation & Honeywell Hardware Products

A valued customer for over 12 years, Honeywell HPG has relied on StayLinked Consulting Services (formerly evolveIT) to provide analysis, design, coding, and testing services for its AS/400 business application software. Through the years, as the Hardware Products Group has grown, StayLinked Consulting Services has provided continuity to the information systems department and has supplied imagination, foresight, and a keen understanding of their unique business requirements.

As a team, Honeywell HPG and StayLinked Consulting Services have successfully completed a wide range of IT projects. These projects include application enhancements, interfaces with external systems, year-2000 conversion, and conversions of various systems and databases. Through this effort, Honeywell HPG has migrated its many distinct business units to a single, robust, enterprise application.

**EXAMPLES OF SERVICE PROJECTS:**

Application Enrichment: Shipping System Enhancements, Item Costing and Pricing Enhancements, Lot Tracing Enhancements, On-Site Parts Replenishment System, Cycle Counting System, Allocation System Based on Item Lot Attributes, Bearing Re-Lube Tracking System, QC Destructive Test Tracking System, Warehouse RF Enabling

**SYSTEM INTERFACES:**

EDI Interfaces, Web Site Interface, Outsource Vendor Interface, Xelus Purchase Planning System Interface, PC File Upload Interfaces

**CONVERSION AND FIELD EXPANSION PROJECTS:**
